

Websites that I am stealing ideas from:

<https://www.eringrumley.com/>

<https://www.laurenmaher.com/>

<https://www.deborahhart.com.au/>

Dunno if that helps or is just too much mixed information. Basically I'm thinking: logo with name and title at the top, maybe a little clip art of nature in the background haha. There's gonna be 4-5 tabs at the top. ALSO the colors I'm using here are my color scheme (dark purple, blue and a dark bluish-green). I'll try to draw it out and upload a picture...

ABOUT ME

I believe that every person holds the power to transform their own lives. It is my privilege to walk with my clients on that journey, combining empathetic connection with evidence-based strategies.

While I work with a wide range of concerns, I specialize in:

Anxiety and stress management

Depression and burnout

Maladaptive perfectionism

Self-doubt and imposter syndrome

Identity development

Work life balance/relationship issues

Eating and body image concerns

Because of my background as a professional musician, I am especially passionate about working with high achievers and performing artists.

Before becoming a therapist, I worked as a clarinetist for "The President's Own" U.S. Marine Band: holiday dinners at the White House, live televised events, national concert tours. The external pressure is intense, almost as intense as the internal pressure that nearly every performing artist feels deep inside.

In my therapy practice with performing artists and other high achievers, I draw from psychological sciences and the common experiences of professional musicians to help clients build a more flexible relationship with the stresses of their career, build an authentic and values-driven life, and address struggles with confidence, motivation and balance.

MAYBE A QUICK NOTE ABOUT WHAT THE THERAPY ROOM IS LIKE? SAFE, NONJUDGMENTAL, ETC....*a relational, strengths-based approach to create an emotionally “safe space” for personal growth and discovery.*

Therapy

You might want help with...

Identity development
Anxiety and stress management
Maladaptive perfectionism
Self-doubt and imposter syndrome
Depression or burnout
Disordered eating and body image concerns
Work-life balance
Relationship issues/setting boundaries

Therapy may help you...

Manage stress and anxiety
Reframe unhelpful beliefs
Develop greater self worth and self-confidence
Cope with uncomfortable emotions and situations
Increase compassion for yourself and others
Develop self-care strategies
Learn and set healthier boundaries in relationships and with work
Move through creative or career blocks with clarity
Explore identity outside of work/art/achievement
Create work/performances that have meaning and purpose.

COACHING

In addition to traditional talk therapy, I offer coaching sessions to performing artists to address performance anxiety, perfectionism, and developing a mission-driven career.

In these sessions, I draw from ACT (Acceptance and Commitment Therapy) and CFT (Compassion Focused Therapy) to help performers learnsomething about stage fright,

and create performances that have meaning and purpose, through mindful acceptance and flexibility.

Also a blurb on perfectionism?

Contrary to common belief, perfectionism doesn't help us achieve our goals. It keeps us small, distracted by the fear of making a mistake or seeming messy.

Perfectionism causes:

Procrastination

Shame

Shutting down when emotional

Imposter syndrome

Obsession with achievement

Chronic stress and burnout

Frequent and intense anxiety of being perceived negatively.

What if you can let that all go, and still be successful, loved and accepted as you are?

“Perfectionism is a self-destructive and addictive belief system that fuels this primary thought: If I look perfect and do everything perfectly, I can avoid or minimize the painful feelings of shame, judgement, or blame” - Brene Brown, The Gifts of Imperfection

Education and Training

Education:

MSW, Saint Louis University

MM Music Performance, University of Southern California

BM Music Performance, University of Minnesota - Twin Cities

Additional Trainings (partial list):

RO-DBT (Radically Open Dialectical Behavioral Therapy) Level 1

Compassion Focused Therapy - Drs. Dennis Church and Paul Gilbert (Psychwire)

Treating Adult ADHD - Margaret Dawson

Body Perfectionism: Innovative Tools from DBT, CBT, ACT ERP and More to Improve Self-Worth - Deanna Smith (PESI)

Certification Training in DBT (Dialectical Behavioral Therapy) - Alexa Mulee, C-DBT

Shamelessly Imperfect: A guide to Help Your Clients Break Free from Perfectionism - Milly Feliz (PESI)
ACT (Acceptance and Commitment Therapy) 2-Day Intensive - Dr. DJ Moran
Mindfulness Certification Course, 2-Day Intensive - Dr. Debra Premashakti Alvis
Food and Mood: A Therapist's Guide to the Role of Nutrition in Mental Health - Kathleen Zamperini

Rates and insurance

Rates

20 minute phone call consultation: free
Individual therapy session: \$125 (50 minutes)

I also maintain several slots for sliding scale clients. If you would like to talk more about this option, give me a call!

Insurance

Starting summer 2026, I will be able to take United and Anthem insurance for therapy. Some insurance plans will also provide partial reimbursement for out of network therapy. I can provide you with a superbill to submit to your insurance. I advise you to call your insurance provider ahead of your first session and ask:

- If your insurance company will accept superbills from out-of-network providers
- How much your insurance company will reimburse for sessions
- If you have a deductible you must meet before being reimbursed
- If there is a limit on the amount of sessions or amount that is covered

Please note: involving your insurance company means that you are given a psychological diagnosis and this becomes part of your permanent medical record.

Random notes....

Fulfill your musical mission both on and off stage, through flexibility, compassion and acceptance.

Or through mindfulness, compassion and flexibility?

Psychology today areas of interest....

Anxiety, depression, trauma, adjustment disorder, gender identity? Grief? Life transitions, mindfulness, mood disorders, perfectionism, self esteem, social anxiety...body image and disordered eating...but not eating disorders.

Creative block/feeling stuck

Self doubt and imposter syndrome

Coping with rejection

Difficulty with work/life balance and relationship boundaries

Dialectical (DBT)

Acceptance and Commitment (ACT)

Relational Therapy

Attachment-Based or say Attachment Theory

Compassion Focused (CFT)

Existential

People I need to email and how I'm going to do it.....

SANGYOON I would totally go to my alma mater to do a masterclass while he's on paternity leave hellooooo.

Who tf teaches in chicago? OMG should I ask Lisette anyway? Like maybe she's got students or connections? Why not reach out to her!! Maybe I will break into the recorder world somehow with this hah.

MAKE A saved draft of an email saying i'll be out of office but can meet virtually so it's ready to go. You can make it unspecific and BCC it to everyone!

Notes from Deb Hart.....basically she's burnt out because she doesn't like having to sell herself. And she doesn't like how self-obsessed and self-interested classical music is. So basically I get it.

Russ Harris, The Happiness Trap.

Kelly Wilson, Things May Go Terribly, Horribly Wrong

Process-based therapy. Variation, selection, retention.

The six basic human yearnings...
